## MEET OUR COURSE DIRECTOR

### **Guillaume Fargues – Platinum PADI Course Director / EFR Instructor Trainer #482749**

Guillaume took his first dive over 20 years ago in the cold waters of Northern France. Before becoming a dive professional, he was working as a management consultant in Paris. Realizing he was more interested in being underwater than behind a desk, he decided to pack his diving gear and a pair of boardshorts and headed to Thailand.

With 13 years of teaching experience he has trained many students from Open Water Diver to Instructor. As a PADI Course Director, Guillaume has been running the IDCs and other professional courses at Ban's Diving Resort for over 8 years. When he is not training Dive Instructors, he is often seen on the boat ready to jump in with his sidemount set.

## **To qualify for PADI Instructor Development Course, you'll need to:**

### **Instructor Development Course. 14 days.**

This module includes Assistant Instructor Course, Open Water Scuba Instructor and EFR (CPR and First Aid) Instructor.

This program will build upon your abilities to organize and supervise dive activities, while concentrating on developing teaching skills. Through independent study, classroom sessions and practical application, candidates learn to construct effective teaching presentations and conduct PADI programs. To help you through the program, PADI has developed an array of learning tools.

During the IDC you will use the latest teaching techniques, the complete system of PADI support materials, and will be continuously assessed on your teaching and presentation skills. You will be required to give additional teaching presentations beyond that of the usual IDC Program. This gives you an added advantage not only during the final Instructor Examination (IE), but also prepares you for a future career as a diving professional. Upon successful completion you will be awarded an IDC completion form, which is your passport to the IE.
